FORESTERS OF AMERICA.

The objects of this order are to unite fraternally all white males of good character between the ages of 18 and 50 years, to aid its sick members, bury its dead, give relief to their widows and orphans, to find employment for unemployed members, and all other benevolent purposes. There are one hundred and seventy Courts in this State, with a membership of 20,000, also auxiliaries, which are known as Knights of Sherwood Forest, Companions of the Forest of of America and Junior Courts.

The Supreme Head of the Order is known as the Supreme Court, and was organized in Minneapolis on August 15, 1889, they having on that day seceded from the Ancient Order of Foresters, whose Supreme Head is in England. The Supreme Court meets biennially and the next session will be held in San Francisco, California, on the last Tuesday in August, 1915.

The Supreme Court comprises 1,865 Courts, with a total membership in the United States of 241,399 members.

The Grand Court of California was instituted on November 20, 1889, and the officers for the year 1914-1915 are as follows: Wm. M. Klinger, Junior Past Grand Chief Ranger, San Francisco; Milton M. Davis Grand Chief Ranger, San Francisco; A. J. Cronin, Grand Sub-Chief Ranger, Santa Clara; Frank Conklin, Grand Treas., San Francisco; Joseph B. STREET AND AVENUE GUIDE

OF THE

CITY AND COUNTY OF SAN FRANCISCO

COMPILED FROM OFFICIAL SOURCES

EXPLANATIONS

According to the method adopted in this city for numbering buildings, Market Street is the starting point for numbers on all streets running from it in a northerly, southerly or westerly direction, and the water front for all streets running therefrom in a westerly or southwesterly direction. The numbers on all streets not commencing at Market Street or the water front run in conformity with the numbers of the main streets running parallel with them, except in the case of a few streets which are numbered in an irregular manner.

On all streets between the water front and Central Avenue the even numbers are on the right-hand side, and the odd numbers on the left, starting from the point of beginning. Beyond Central Avenue most of the streets have been numbered in a contrary manner. One hundred numbers, or as many thereof as are necessary, are allotted to each block bounded by main streets; for instance, Montgomery Street commences at Market, and the main streets crossing as you proceed north are Sutter, Bush, Pine, etc. Therefore any numbers between 1 and 100 will be found on the right or left-hand side of the street between Market and Sutter, between 100 and 200 from Sutter to Bush, between 200 and 300 from Bush to Pine.

In the streets which are numbered, a dash (——) indicates that the cross street does not extend to that side; (o), the street borders on the bay, or public park, cemetery, etc., consequently there are no buildings on blocks thus designated; (e), the street is not opened through the block, or is interrupted in its course at that point by a public square, cemetery, etc.; (e), end of street.

ABBREVIATIONS.—N, north; E, east; S, south; W, west; Av, avenue; bet, between; nr, near; s, side.

Addressograph

PRINTS FROM TYPE

IT IS easy to install the ADDRESSOGRAPH—you send your list of names to this office, where an address plate is made up for each name. Or, you can make your own address plates with the Office Graphotype, a machine which embosses an address on a plate almost as quickly as it can be written on the typewriter.

The address plates serve as card indexes and are filed in steel drawers in any desired order in the same manner as cards in an ordinary card file. By means of sub-dividing tabs of any desired style, the address plates can be arranged and classified alphabetically, numerically, geographically, or in any desired manner.

Prints 50 to 60 Typewritten Addresses Per Minute

So efficient is the ADDRESSOGRAPH as a card index and constant reference file that many users have discarded card files and rely entirely on this system for maintaining their valuable lists.

More than 40,000 merchants and manufacturers in 239 distinct lines of business are saving time, labor and money, building business and increasing the efficiency of their office forces with the ADDRESSOGRAPH—you cannot afford to be without it.

The ADDRESSOGRAPH is used by manufacturers, wholesalers, department stores, dealers, banks and trust companies, real estate and insurance companies, public service corporations, government departments, associations, laundries and cleaners, commission merchants, brokers, publishers, and in all lines where a regular list of names is maintained and frequently addressed.

Tell us the size and nature of your regular list of names. Send us samples of the circulars, cards, envelopes and special forms you address from these lists. And without obligation on your part we shall tell you all about the ADDRESSOGRAPH for your needs and show you in dollars and cents just what it will save you.
